

CICMC to host 2019 CMC-Global Annual Meeting of Delegates/ CMC International Conference

CMC-Global announced last month, at the CMC International Conference in Milan, that the Caribbean Institute of Certified Management Consultants (CICMC) will be hosting the CMC-Global Annual meeting of Delegates and CMC International Conference in 2019. The scheduled dates are October 15-18 and Nassau, Bahamas is the Host City.

CICMC's president, Donald Demeritte, upon accepting the award during the 'flag passing ceremony', expressed CICMC's appreciation for being entrusted to host the prestigious events. He told delegates that CICMC views the conference as an ideal time to expose key Caribbean stakeholders to the CMC-Global network, its global resourcing capabilities and ability to contribute to the region's growth. Conversely, he noted the benefits to the network of exposing CMC-Global members to the many and varied consultancy opportunities in the Caribbean and the value of establishing business relationships in the Caribbean.

"CREATING INDELIBLE FOOTPRINTS: Blending technology and networking to progressively expand horizons", as a conference theme succinctly reflects this focus.

CICMC's strategy to anchor the above, is premised on the identifying and designing a dynamic portfolio of speakers for the conference, including four (4) Caribbean Heads of States, along with an attractive blend of topical and relevant professional development workshops.

In preparation for next year, CICMC will focus on creating content that will expose delegates, partners and family to the warmth and culturally-rich heritage of the Caribbean.
